

## Harvey Denied TV Channel 58 For LA By FCC

The Federal Communications Commission this week turned down the request of Lawrence Harvey, operator of the Harvey Machine Co., that another television channel be allocated to Los Angeles.

Harvey had asked the FCC to add Channel 58 to the channels already allocated to Los Angeles. He had previously asked that Channel 58 be assigned to Beverly Hills, and that request was also turned down.

The FCC said that placing an additional channel in Los Angeles would forestall the addition of channels in a number of smaller communities in the Los Angeles area which might, in the future, seek television facilities.

Presently there are ten channels assigned to the Los Angeles area. Harvey asked that this allocation be increased by the addition of Channel 58. Another Harvey television venture, the proposed construction of Channel 34, already assigned to Los Angeles, is still pending, according to Joseph Brenner, Harvey's attorney. Harvey and two other applicants are awaiting the setting of a date for a hearing on allocation of Channel 34 to private interests. If he is given Channel 34, Harvey has said, he will construct the station somewhere in Los Angeles, with a transmitter on Mt. Wilson.

Brenner spiked rumors that Harvey might be considering erecting his transmitter in the Rolling Hills.

## Chace To Branch Out In 4 New County Offices

In a move to bring county government closer to the people of his district, Supervisor Burton W. Chace last week proposed the establishment of four branches of his office.

Supervisor Chace requested County Manager Arthur Will to provide space in county buildings where the supervisor or members of his staff would maintain office hours one day per week.

"This will aid mothers, housewives, businessmen, and others whose time is limited and who have problems which they might want to present to their county supervisor."

Shortly after taking office he realized that many of the million and a half residents of my district live farther than 20 miles from the Los Angeles Civic Center and should be provided with a local office where

PRIVATE DONALD WILSON ... Moves to Pendleton

## Marine Private Donald Wilson Ends Boot Camp

Marine Private Donald E. Wilson, son of Mrs. Kathleen Wilson, 20938 Jamison Ave., has completed training at the Marine Corps Recruit Depot in San Diego and will start individual

combat training at Camp Pendleton this week.

The nine-week "boot camp," as recruit training is commonly called, gave Wilson instruction in such basic military subjects as precision drill, first aid, Ma-

rine Corps history, and field tactics.

At Camp Pendleton, Private Wilson will receive further training in the use of a .30 caliber Garand rifle, the .45 caliber pistol, the carbine, and the Browning Automatic Rifle.

He will also receive instruction in the use and employment of light and heavy machine guns, 60 and 81 mm. mortars, flame-throwers, and the latest anti-tank weapons, Marine Corps officials state.

### WORM SCOURGE

The army worm, a major threat to corn, wheat and other crops, gets its name from the fact that it travels in great masses from one farm field to another.

## Slate Community Street Dance In Honor of City's Neon Nameplate

Plans are currently being made for a giant community street dance to celebrate the turning on of the new neon sign identifying the City of Torrance, for which all money has been subscribed.

The Chamber of Commerce has tentatively set Sept. 11 as the date for the "Turn-On" celebration, and has suggested to City Manager George Stevens that El Prado between Sartori and Cravens Aves. be closed to traffic between the hours of 6 p.m. and 1 a.m. on that date.

Concession stands would be erected on the sidewalks and operated by various service clubs and veterans groups. The Torrance Area Youth Band has

been acquainted with the downtown and civic area by attending such a dance.

Through a survey of the Torrance Blvd. and Western Ave. corner by competent engineers, the Chamber has decided that the Southwest corner is the best on which to erect the sign. From there, it would be visible to both north and south bound traffic.

The Chamber has asked permission of the city engineer to erect the sign on city-owned property on the southwest corner of Torrance Blvd. and Western Ave., stating that all inspections and set back regulations would be complied with.

The sign will be 9 by 14 feet in size and will identify Torrance as "The City of Industrial Opportunity" along with a neon arrow pointing the way to the central business section.

According to City Ordinance No. 167, it is unlawful for anyone to remove or injure any portion of any public sewer, or manhole, or to open or enter any public sewer or manhole, without first obtaining a permit from the street superintendent to do so.

## Board Approves Sewer Petition

Circulation of a new petition for construction of sewers in Milton St. and other rights of way near Torrance was approved last week by the Board of Supervisors.

Supervisor Burton W. Chace revealed that despite proper return of the first petition revision of the area to be improved excluded the neighborhood lying easterly of New Hampshire Ave. This will reduce the cost from \$141,800 to \$108,200 so that a new petition had to be circulated.

Under the rules governing the new petition, it will have to be returned by July 1, 1954, signed by owners of 60 per cent of the area to be improved.

The total area to benefit from the improvement is approximately a quarter of a mile square and bounded by Maple St. on the north, East Rd. on the south, and Normandie and New Hampshire on the west and east, respectively.

## Harbor City Bus Service Threatened

The Harbor City Bus Line, dropped more than two years ago by Torrance because everybody clamored for the service but nobody used it, may be dropped again by another operator, it was indicated yesterday.

Operated during the past year by the Gardena Municipal Bus Lines, the run may be shut down as the line seeks to cut expenses following a wage hike recently granted drivers.

They might present their problems.

"We have had numerous requests from residents from residents of Santa Monica, Inglewood, the Harbor area and other communities for this type of program," he concluded.

Give your friends time to answer

The people you're calling may not be near the phone when it rings. Especially during these summery days when barbecues and outdoor living are so popular. To give your friends a good chance to get to the telephone, why not let it ring at least a full minute. They'll appreciate your thoughtfulness. And you'll avoid the disappointment of an incomplected call.

this free booklet

keeps the out-of-town and local numbers you call often, always at your fingertips. Why don't you telephone, send a postcard or drop in at your nearest Pacific Telephone business office, and get your free copy, today.
